PROFESSIONAL SUMMARY

Aspiring Software Engineer with strong proficiency in Java, Python, SQL, and data structures, with hands-on experience in building scalable applications using modern web technologies. Knowledgeable in database management systems (DBMS), query optimization, and Agile practices, with a focus on writing efficient and maintainable code. Experienced in Artificial Intelligence and Machine Learning through internships and projects, with the ability to develop data-driven solutions. Strong problem-solving skills and a collaborative mindset, eager to contribute to high-quality software development.

EDUCATION

B.Tech, Computer Science and Engineering | Minor: ECE

Srinivasa Institute of Engineering and Technology | **CGPA:** 8.92/10 | **Graduated:** 2026

TECHNICAL SKILLS

- Programming Languages: Python, Java, C, C++
- Web Technologies: HTML, CSS, JavaScript, Node.js, React.js
- Tools & Platforms: Git, VS Code, Android Studio, linux
- Databases: MySQL, MongoDB (basic)
- Core Competencies: Problem Solving, Data Structures and Algorithms
- Emerging Technologies: Artificial Intelligence & Machine Learning, Generative AI, Prompt Engineering (basic)

CERTIFICATIONS

- Data Science Using Python – SWAYAM (Aligarh Muslim University)
- Java Programming Fundamentals – edX (Universidad Galileo)

WORKSHOPS & TRAININGS

- Artificial Intelligence and Sustainability – IBM SkillsBuild
- Internet of Things (IoT) – Meck Teck Research Foundation
- Artificial Intelligence – ICT Academy (Microsoft & Redington Foundation), 2026

INTERNSHIPS & EXPERIENCE

Blackbucks Education Pvt. Ltd. – AI & ML Intern (Dec 2025 – Apr 2026)

- Completed 16-week industry-oriented internship in Artificial Intelligence & Machine Learning
- Worked on real-world problem-solving through project-based learning and assignments
- Gained exposure to AI workflows, data handling, and model-based concepts
- Collaborated in structured training programs aligned with industry practices

Google Android Developer Virtual Internship – EduSkills (Google for Developers)

- Developed Android applications using Java.
- Gained practical exposure to mobile app development.

Amazon Data Engineering Virtual Internship – EduSkills (AWS Academy)

- Learned fundamentals of data engineering and AWS services.
- Hands-on experience with ETL processes and data storage solutions.

PROJECTS

IPL Match Data Analysis – Team Performance & Winning Patterns

- Analyzed IPL match *data to identify team performance trends and winning patterns
- Used Python/SQL for data processing and extracting insights
- Visualized key metrics such as win rates, player contributions, and match outcomes

ACHIEVEMENTS

- Completed virtual internships from Google & Amazon through EduSkills.
- Participated in college-level hackathons to solve real-world problems with creative tech solutions.

STRENGTHS & LANGUAGES

Problem Solving | Collaboration | Innovation | Communication & Presentation

English (Fluent), Telugu (Native).
